

# Where would you prefer to walk?

## Host a Walkable Community Workshop to improve walking in your community!

The Boston Region Metropolitan Planning Organization (MPO) will conduct a Walkable Community Workshop in your community and provide the tools to improve your walking environment.

**Walking is good for your health, environment, and local economy.**

MPO staff will meet with you to help define the study area and identify participants. The MPO then gives the workshop and provides guidance on future actions. There is no charge for the workshop.

If you think your community or neighborhood would be interested in hosting a workshop, please call

**Cathy Buckley** or **Sean Pfalzer** at **617-973-7100** or e-mail [walkable@bostonmpo.org](mailto:walkable@bostonmpo.org).

Even if your community has hosted a workshop already, the MPO can conduct a future one in a different neighborhood.

**Help make your community a walkable and vibrant place. Schedule your workshop now!**
