

**Memorandum for the Record  
Transportation Planning and Programming Committee of the  
Boston Region Metropolitan Planning Organization (MPO)**

**April 17, 2008 Meeting**

9:00 AM –5:00 PM, State Transportation Building, Conference Rooms 2 and 3, 10 Park Plaza, Boston

David Mohler, Chair, representing Bernard Cohen, Executive Office of Transportation & Public Works (EOTPW)

**May 1, 2008 Meeting**

9:00 AM –5:00 PM, State Transportation Building, Conference Room 4, 10 Park Plaza, Boston

David Mohler, Chair, representing Bernard Cohen, Executive Office of Transportation & Public Works (EOTPW)

**Meeting Agenda**

**1. Transportation Improvement Program (TIP) Municipal TIP Input Day**

On April 17<sup>th</sup>, at the first of two MPO Municipal TIP Input Days for 2008, representatives from 28 municipalities made presentations to the Transportation Planning and Programming Committee on their respective priority transportation projects. Thirty municipalities were scheduled to present, however, representatives from Randolph and Revere did not attend. At the second Municipal TIP Input Day on May 1<sup>st</sup>, representatives from 27 municipalities made presentations. Again, thirty communities were scheduled to present, but representatives from three municipalities – Milton, Boxborough, and Scituate – did not attend. (See attached TIP Municipal Input Days schedules.) Projects discussed included those in the highway, bridge, arterial, intersection, bicycle and pedestrian, enhancement, and regional mobility categories.

Prior to the meetings, each Committee member was provided a loose-leaf binder with copies of the project information forms for each of the projects to be discussed. They also received a project evaluation matrix. These materials were also provided in CD format.

The presenters representing the municipalities included state representatives, mayors, selectmen, town administrators, public works personnel, municipal engineers, planners, and consultants. They provided information on project scope, design stage and readiness, right-of-way and right-of-entry acquisition, permitting, municipal priorities, estimated project costs, and alternative sources of funding. Some presenters also discussed how their municipalities' projects would address congestion, air quality, economic development, safety, accessibility, and environmental justice issues. Many provided handouts describing their projects and providing more details.

Representatives from MassHighway District Four, MassHighway Environmental, and MassHighway Right of Way were in attendance on April 17th to give the agency's perspective on the presented projects and to provide information to both members and

proponents regarding each project's development, any identified problems or issues, unresolved questions, and schedules. On May 1<sup>st</sup> MassHighway Districts Three, Four, and Five, MassHighway Environmental, and MassHighway Right of Way were in attendance.

Committee members followed-up with questions. They sometimes asked for more details on the scope and plans for projects and often wanted to know more specifics about the progress with permitting, right of way acquisition, mitigation measures, and about any local contributions to funding and project development. In certain cases, members advised project proponents of next steps they would need to take in the project development process.

At the May 1<sup>st</sup> meeting, members decided to hold an Agency TIP Day. For that meeting, staff was asked to provide a list of bridges presented at the Municipal TIP Input Days.

## **2. Adjourn**

**Transportation Planning and Programming Committee Meeting Attendance  
Thursday, April 17, 2008, 9:00 AM**

**Member Agencies**
