Projects grouped by MAPC subregion and by MPO Investment Program

This table contains unprogrammed projects in the Boston region that may be considered for evaluation in the FFYs 2024-28 TIP cycle. Not all projects listed in this table will be evaluated for funding in the FFYs 2024-8 TIP, as projects must be PRC approved and submit sufficient project documentation prior to scoring. The MPO has also established a policy to prioritize projects that have reached the 25% design submission stage for funding. This list is subject to change as more project information is received.

Table 1: FFYs 2024-28 Transportation Improvement Program (TIP) Universe of Projects - FFY 2024-2028 Universe

Projects grouped by MAPC subregion and by MPO Investment Program

This table contains unprogrammed projects in the Boston region that may be considered for evaluation in the FFYs 2024-28 TIP cycle. Not all projects listed in this table will be evaluated for funding in the FFYs 2024-8 TIP, as projects must be PRC approved and submit sufficient project documentation prior to scoring. The MPO has also established a policy to prioritize projects that have reached the 25% design submission stage for funding. This list is subject to change as more project information is received.
